A. Explanation of the relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution;

Subject to any specific instructions, taking into account the criteria above, BNP Paribas will generally prioritise for this business activity the execution factors in the following order:

- i. Price
- ii. Likelihood of execution and Size
- iii. Speed of Execution and Market Impact

B. Description of any close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders;

In respect of venues Euronext Paris, BNP Paribas has a small equity participation / board representation. However, such participation is held on a passive basis and has no impact on the day to day execution decisions taken by BNP Paribas traders.

C. Description of any specific arrangements with any execution venues regarding payments made or received discounts, rebates or non-monetary benefits received;

In relation to the activity conducted BNP Paribas does not have any specific payment arrangements with any of the top five execution venues.

D. Explanation of the factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred;

BNP Paribas continues to review the execution venues that it uses but no change has been made to the execution venues used since the BNP Paribas execution policy was last amended.

E. Explanation of how order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements;

BNP Paribas does not make a distinction in the application of its best execution arrangements based on client classification.

F. Explanation of whether other criteria were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client;

BNP Paribas does not execute trades with retail clients for this business activity.

G. Explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under RTS 27;

BNP Paribas utilises a number of processes to analyse the quality of its execution arrangements based on benchmark data where available.

H. Where applicable, an explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU.

BNPP does not currently use any CTP for analysis of best execution, but will monitor the availability of such providers and the quality of information provided as part of on-going reviews of our best execution arrangements
