If any day during an Interest Period for a Compounded Rate Loan is not a RFR Banking Day, the rate of interest on that Compounded Rate Loan for that day will be the rate applicable to the immediately preceding RFR Banking Day.
  - (ii) BNPP will promptly, upon an interest payment amount being determinable for each Interest Period for a Compounded Rate Loan, notify the Borrower(s) of the interest payment amount that is due at the end of such Interest Period and if the Borrower(s) so request, each applicable rate of interest relating to the determination of that interest payment amount for such Compounded Rate Loan. This Clause 3 shall not require BNPP to make any notification to any Borrower on a day which is not a Business Day.
  - (iii) Where any Interest Rate is to be determined in relation to a Compounded Rate Loan, BNPP shall promptly notify the Borrower if BNPP determines at any time that:
    - (1) there is neither an applicable RFR nor an applicable Historic RFR nor an applicable Central Bank Rate for the purposes of calculating the Daily Non-Cumulative Compounded RFR Rate for an RFR Banking Day during an Interest Period for a Compounded Rate Loan; or
    - (2) before close of business on the RFR Banking Day on which the Interest Rate is to be determined, the cost to it of funding the relevant Drawing from whatever source it may reasonably select would be in excess of the relevant RFR Market Disruption Rate.
  - (iv) If paragraph (1) or paragraph (2) above applies, the Interest Rate applicable to the Compounded Rate Loan for the relevant interest period will be determined by reference to the Cost of Funds instead of the relevant Compounded Reference Rate.

(d) Term Rate Loans

- (i) Interest will be calculated on each Term Rate Loan for an Interest Period at the percentage rate per annum which is the aggregate of the applicable Term Reference Rate and the relevant Margin. BNPP will promptly notify the relevant Borrower of the determination of a rate of interest relating to a Term Rate Loan.
- (ii) Where any Interest Rate is to be determined in relation to a Term Rate Loan, BNPP shall promptly notify the Borrower if, BNPP determines at any time that:
- (1) at or about noon on the applicable date on which interest is to be determined by BNPP, either (A) no Screen Rate is available for the currency of the relevant amount or (B) no Screen Rate is available for a period equal to the required Interest Period and (if applicable) it is not possible to calculate an Interpolated Screen Rate for the relevant period; or
  - (2) before close of business on the applicable date on which interest is to be determined by BNPP, the cost to it of funding the relevant Drawing from whatever source it may reasonably select would be in excess of the relevant Term Reference Rate; or
  - (3) (in relation to any Drawing yet to be granted) before close of business on the applicable date on which interest is to be determined by BNPP, the relevant currency is not available to BNPP in the amount and for the period required.
- (iii) If paragraph (1) or paragraph (2) above applies, the Interest Rate applicable to the Term Rate Loan for the relevant Interest Period shall, subject to the immediately succeeding paragraph below, be determined by reference to the Cost of Funds instead of the relevant Term Reference Rate. If paragraph (3) above applies, such Drawing shall not be granted.
- (iv) If a Screen Rate Replacement Event occurs for any Term Rate Loans, on and from a Screen Rate Replacement Event Date:
- (1) (in the case of a Screen Rate Replacement Event relating to EURIBOR and Term Rate Loans (or other sums) in euro):
    - (A) Term €STR plus the €STR CAS will be used in place of EURIBOR for the calculation of the Interest Rate for Term Rate Loans (or other sums) in euro; or
    - (B) if after giving effect to (A), no Term €STR is available, the Compounded Reference Rate for euro will be used in place of EURIBOR for the calculation of the Interest Rate for such Term Rate Loans (or other sums) in euro, the euro will be deemed to be a Compounded Rate Currency and such Term Rate Loans (or other sums) in euro will be deemed to be Compounded Rate Loans,

provided that in all cases where the Screen Rate Replacement Event Date falls prior to the last day of any Interest Period for a Term Rate Loan (or other sum) in euro, then EURIBOR will continue to apply to such Term Rate Loan (or other unpaid sum) for the remainder of that Interest Period and EURIBOR will be replaced on and from the first day of the next Interest Period (if any) for that Term Rate Loan (or other sum) in euro;

- (2) (in the case of a Screen Rate Replacement Event relating to CME Term SOFR and Term Rate Loans (or other sums) in USD), the Compounded Reference Rate for USD will be used in place of CME Term SOFR for the calculation of the Interest Rate for such Term Rate Loans (or other sums) in USD, USD will be deemed to be a Compounded Rate Currency and such Term Rate Loans (or other sums) in USD will be deemed to be Compounded Rate Loans, provided that where the Screen Rate Replacement Event Date falls prior to the last day of any Interest Period for a Term Rate Loan (or other sum) in USD, then CME Term SOFR will continue to apply to such Term Rate Loan (or other unpaid sum) for the remainder of that Interest Period and CME Term SOFR will be replaced on and from the first day of the next Interest Period (if any) for that Term Rate Loan (or other sum) in USD; and
- (3) (in the case of a Screen Rate Replacement Event relating to any other benchmark rate and Term Rate Loans (or other sums) other than as specified in paragraphs (2) and (3) above) the applicable replacement screen rate for the calculation of the Interest Rate for Term Rate Loans (or other sums) would be that reasonably specified by BNPP, provided that where the Screen Rate Replacement Event Date falls prior to the last day of any Interest Period for a Term Rate Loan (or other sum) in the relevant currency, then such benchmark rate will continue to apply to such Term Rate Loan (or other unpaid sum) for the remainder of that Interest Period and such benchmark rate will be replaced on and from the first day of the next Interest Period (if any) for that Term Rate Loan (or other sum) in that currency.
